

16. SERIAL NUMBER AND SOFTWARE VERSION

- I. Check current version of software
 - a. With Machine On, Press F1 to access the menu bar
 - b. Use the right arrow key until you reach the HELP section
 - c. When ABOUT is highlighted, press the “Enter” key.

- II. The following screen will be displayed
 - a. Write down the Version and Serial Number for later use.

```
MANUFACTURER:  VINSTON MACHINERY LTD.  
SERIAL NUMBER:  
MANUF. DATE:    2155/255  
VERSION:        1.1.8.DEMO
```

- b. The user can also check on the serial number by examining the ID tag on the side/back of the machine.
